22 LR STINGER® HP

The hypervelocity leader for nearly 30 years. CCI put the word hypervelocity in the shooters' dictionary. Stinger 22 long rifle has been the hypervelocity leader for nearly 30 years. Others have tried—and failed—to equal Stinger's performance; they cannot match the original.

Stinger is the ultimate varmint load for rimfire 22 long rifles. CCI use an extended, nickel-plated cartridge case to hold more propellant, yet Stinger remains within standard 22 long rifle pressures. With a special hollow point bullet traveling 30 percent faster than regular long rifle hollow points, Stinger gives you the accuracy, flat trajectory and explosive terminal effects that varmint hunting demands. Varmints who get "Stingered" are anchored fast.

#0050—22 LR Stinger HP

FEATURES & BENEFITS:

- 1640 feet/sec—the fastest 22 LR with varmint-class accuracy
- Special 32 grain hollow point bullet with tear-drop cavity for complete disruption
- Clean-burning propellants keep actions cleaner
- Sure-fire CCI priming
- Reusable plastic box with dispenser lid

USAGE:

- Small varmints
